Work and Related Experience

General Assembly. Software Engineering Fellow. Oct. 2019 - Jan. 2019

- Completed 12 week immersive full stack development course
- Utilized Github and Git for version control
- Featured projects:
 - Developed an full-stack application to check current weather data anywhere in the US using an open-source third party API, as well as React.js and Ruby on Rails in 3 days
 - Collaborated with three other team members to design a full-stack Party Planning web application using MongoDB, and Express.js in 3 days
 - Built a full-stack Task Checklist app using Rails, Javascript and Handlebars in 2 days
 - Created a responsive front-end single player Tic-Tac-Toe web application using Javascript and HTML in 3 days

Questex, LLC. Accounts Receivables & Collections Associate. March 2014 - March 2019

- Maintained a daily call log of 30 to 40 outgoing calls to facilitate collection of past-due balances for various media properties and events
- Managed a small group of part-time workers during an accounting system transition, mainly focusing on data-entry
- Collected total balances ranging from \$500,000 to \$1,000,000 prior to yearly event launches

U.N. Association of Greater Pennsylvania. Intern/volunteer. Feb. 2011 - Aug. 2013

- Compiled and contributed articles relating to events within the organization and designed, formatted and edited monthly newsletters and brochures before passing it on for final approval
- Created graphic designs for newsletters and brochures for the organization

Big Picture, Small World. Research Assistant. Jan. 2011 - May 2011

- Conducted extensive research regarding global statistics using primary and secondary sourcing
- Analyzed and formatted the data using Excel

The Expat Magazine Kuala Lumpur. Intern/writer. July 2008 - Aug. 2008

- Wrote and published 5 articles in 2 issues
- Interviewed members of the public, including the Director of the Malaysian National Museum
- Garnered experience in the start-to-finish publishing process of a magazine, including marketing, sales and design processes
